Bowl Food

Bowl foods are a substantial and stylish alternative to canapés. Small but perfectly formed, bowl food dishes are a perfect middle way between canapés and a full formal dinner. Bowl food is served in ceramic bowls and designed to eat standing up. As with our canapés the bowl food menu can be designed and served in keeping with the branding and décor of your event theme. We can even supply serving staff to take the hassle out of hosting and allow you to mingle with your guests
